

Sky is blue, Rain drops are blue, and Mukto- Mona looks also blue.

BY--- SAMIA CHOWDHURY

Nature has its own way .It rains all day long. They sky is overcast with thick clouds.

As we know, Newspaper is very useful for us and they gave us news and play a vital role to our country. We hope they will continue their heroic jobs and gave us some true news. Although this type of news such as crime, murder etc other subject can have a little bad effect .But as publish the latest reports the researcher made ,the ideas and gave some thought to us, thinker, writers, poets, scientists ,philosopher, are known through the newspapers. Newspapers are the important of modern society and their disadvantages are far lees than the advantages. News papers in the modern world reflect public opinion. They contain a great deal of useful information. Off course it is a high technology millennium year. Web portal news is also play a vital role in this technology millennium year. So, Reading newspaper is daily purpose of our life.

We know that Bangladesh have lots of prospects And have lots of undiscovered things that we don't have any idea. As an example of human beings. There are different kinds of people in our country. Bangladesh, with its large amount of human resources potential and vast natural resources, can progress a lot very quickly. Though it is known to everybody we fight against Pakistani army among the different kinds of united people of our dear Bangladesh. And we discovered Bangladesh as an independent country. So we need to in hired that if our citizen are united we hope and able to stand or defend as a powerful state soon.

"Unity can be a deterrent". For an example, Israel has succeeded in doubling the settlers and the settlement during the accords than during continuous confrontation that preceded it. The unauthorized Geneva accords had marked a very serious concession of the Palestinian refugees' right to return as a result of turning in to the peace process. So it is prove that unity is strength and its leads to success. So we should take a strong determine that: - "Unity is power"

"A friend in deed is a friend indeed"

Friends are those who always with us and who can fulfill some happy moments of our lonely life. We are all lonely in this whole beautiful world. & we need to take a good company. Any one can be friends. When we are lonely a book can be friend, a computer, pen, diary, our family can also be friends of our life. They are always bond of our life.

An acquaintance might never see you cry,
A real friend has shoulders soggy yours.

An acquaintance thinks the friendship is over why you have an argument,
A real friend knows that a fight can never separate friendship.
